

ASSIGNMENT 3 (Group Assignment)
CSC134: COMPUTER AND INFORMATION PROCESSING

(CO4-LO1)

A Web site is a collection of related Web pages and associated items, such as documents and pictures, stored on a Web server. There are thirteen types of Web sites; portal, news, informational, business/marketing, blog, wiki, online social network, educational, entertainment, advocacy, Web application, content aggregator, and personal.

Instructions:

- 1) Prepare written reports that describe all the 13 types of Web sites. The contents of your report should contain the followings:
 - a. The definition/objective/function of each Web site.
 - b. Find **TWO (2)** examples of Web site for each type.
 - c. State the URL (web address) for each example.
 - d. Prints screen the homepage for each example.
- 2) Other requirements: Table of contents, Introduction, Conclusion and References.
- 3) Use the following format: Font type: Arial, Font size: 11, Line spacing: 1.5, Text alignment: Justify.

Due date for submission is on **24 March 2015 before 10.00 pm at room number A2-11**. For reminder, a late submission will be penalized. **Those who do not submit their assignment will not be given any marks.**

Marking scheme:

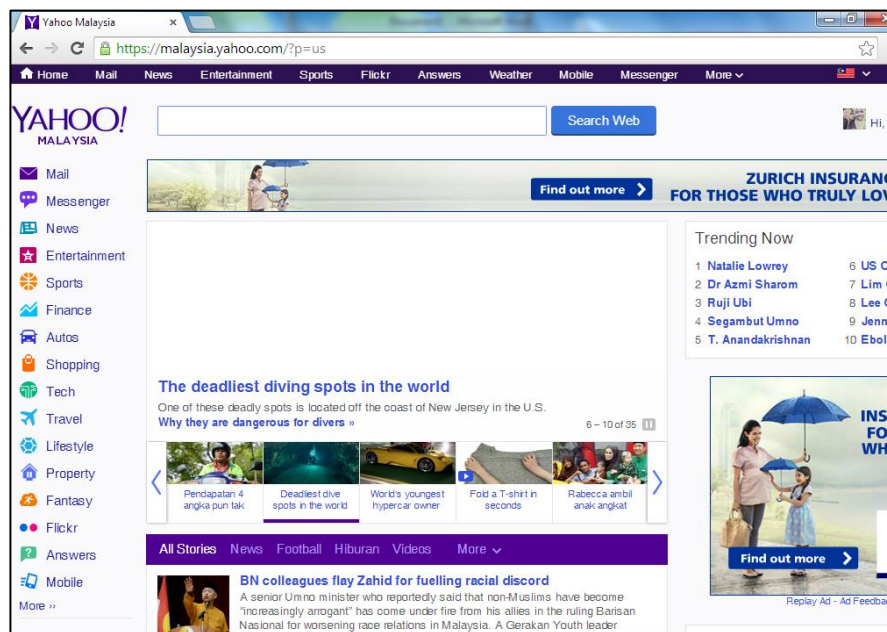

marking scheme.

Category	Remarks				Marks
