GROUP PROJECT ASSESSMENT CSC318 25%

For group project, students are required to form a group of 4 **members**. Each group is required to find one project topic and build system.

Each group is required to prepare:

1. PROJECT PROPOSAL DOCUMENTATION (5%)
    Students are required to prepare a project proposal according to the proposal guidelines as stated below:
    1. Introduction of project's background
    2. Objectives of the project
    3. Scope of the project – purpose, target audience, resources
    4. Entity Relationship Diagram (ERD) & Data Flow Diagram (DFD)
    5. Gantt chart
    6. Conclusion

    please include table of contents and other important information (group members, student ids, group, and date of submission on your proposal cover.

    Submission due date: Monday, 1st October 2018

2. WEB BASED SYSTEM (15%)
    Students are required to build a website/system and must include components of HTML, JavaScript, and PHP although other additional languages are acceptable. ~~Please include multimedia elements such as graphics, video, or animation~~. Kindly refer to rubrics for more information.

3. PRESENTATION (5%)
    1. Your projects must be presented before an audience ideally during the class session
    2. Please bring your proposal along with your final report during the presentation.
    3. Kindly burn your project files and documentation in a CD and bring along during the presentation.

IMPORTANT NOTES:

1. **Assignment MUST be submitted ON TIME. Late submissions will be severely penalised. Plagiarism will result in zero mark.**
2. **Every group MUST bring along your proposal and final report during the presentation.**
3. **Every group MUST burn and bring along CD containing your project codes and documentation during the presentation.**
